

PRODUCT SPOTLIGHT: MOBILE CASE ANTENNAS

GOLDEN RETRIEVER & BEAGLE

Parsec's patent pending, one button solution provides the highest network performance in the industry. Our network in a box solutions were designed to set up and forget with a built in battery that operates with the case closed. The tamper proof case design ensures a secure network solution that's well protected from any environment.

Parsec's quality antennas are built into rugged cases to support the best network on the go. Our Newfoundland can be configured up to 8X8 MIMO LTE and 4X4 MIMO WIFI. Find the case that fits your needs today by contacting a Parsec representative, or visiting one of our approved partners!

ST. BERNARD & NEWFOUNDLAND

*Gasket Mounts sold separately and for specific vehicles.
