HUSKY
PRO8H4L2WBG15B

The round shape of our Husky provides better spacing for antenna elements. This rugged antenna is best used for large service vehicles such as busses and firetrucks.

BELGIAN SHEPHERD
PRO8BS4L2WBG15B

The Belgian Shepherd brings great performance to any vehicle. This antenna was designed for high gain in any environment. Perfect for a wide range of vehicles.

K9 SERIES
PRO8K4L2WBG15B

This antenna is designed to catch reflected signals in urban environments. Our unique low profile design provides better visibility and is best used on police vehicles with LED light bars.

AUSTRALIAN SHEPHERD
PTA8AS4L2WBG15B

The Australian Shepherd brings mobile connection in busy settings. The sleek, low profile design pairs perfectly with discrete LED light bars all while keeping high performance.
