Australian Shepherd

Discover the Australian Shepherd antenna, designed for high-efficiency 5G spanning 600 MHz to 6GHz. These antennas feature 4X4 MIMO cellular, 4X4 MIMO Wi-Fi, and optional GPS and Bluetooth capabilities, making them versatile for both mobile and fixed wireless applications. Engineered with ruggedness in mind, these antennas boast an IP67 rating. Specifically tailored for modern police vehicles equipped with low-profile LED light bars, the Australian Shepherd complements seamlessly. Its sleek, thin housing effortlessly fits between vehicle rooftop ridges, ensuring an aerodynamic profile that minimizes both external and internal noise.

Border Collie

The Border Collie antenna—an advanced 4G/5G solution featuring 2X2 MIMO cellular and up to 2X2 MIMO Wi-Fi, along with optional GPS and Bluetooth. The Border Collie excels in scenarios such as first responder vehicles, remote video monitoring, kiosk systems, NEMA enclosures, IoT systems, and industrial network solutions. Easy installation process requiring just a single 1-inch mounting hole. Encased in a rugged, IP67 housing, the Border Collie ensures durability and reliability in various demanding environments.
